

Kraft Paper

Specialty Kraft

KapStone is a leading producer of specialty kraft papers used in an extensive variety of specialty packaging, wrapping, and interleaving applications. Available in basis weights ranging from 20 lb to 78 lb on a 3,000 square foot basis, these grades have been engineered to deliver on critical end-use requirements.

TYPICAL USES

Specialty Packaging Applications
Steak & Protein Interleaving
Dunnage Bag
Shingle Wrap

Industrial Applications
Insulation Facing
Cable Wrap
Asphalt Saturating
Automotive Masking
Traditional Masking
Steel Interleaving

MANUFACTURING LOCATION

Longview, WA
Roanoke Rapids, NC

PRODUCT FEATURES

Specifically Engineered Performance

Consistent Runnability & Uniform Profiles

Sustainability

BENEFITS

Wet Strength Chemistry - For applications that require sheet integrity to be maintained in wet and humid environments.

Extensible Unit - Provides enhanced tensile energy abortion (TEA) properties in both the machine and cross directions of the sheet resulting in optimal stretch and flexibility properties.

Furnish Flexibility - Fiber composition is grade specific and defined by end-use requirements. Furnish options include highly refined virgin pulp, recycled fiber, and bleach kraft pulp.

Color Additives - KapStone uses bleached kraft furnish to manufacture select packaging and masking grades used in the foodservice and automotive sectors. Color options include: white, black, green, pink, and orange.

We take pride in reducing variability across the entire manufacturing process. Our intense focus on variability reduction drives excellent profiles in the machine and cross directions - delivering efficiencies to our customers during the converting process.

We are committed to producing sustainable products for our customers that adhere to multiple forestry certification standards. Through this commitment, KapStone offers end products that are biodegradable, compostable, and recyclable.

SFI® Certified Sourcing and Chain of Custody
PEFC™ Chain of Custody
FSC® Chain of Custody
Compliant with the Lacey Act and EUTR (European Union Timber Regulations)

Compliance with USFDA - 21 CFR §176.170 and 21 CFR §176.180
Allergen free

US California Proposition 65 Compliant
CONEG Model Heavy Metal and EC/94/62 Article II Compliant
Elemental Chlorine Free (ECF) Unbleached fiber
Toy Safety Standards ASTM F 963 and EN71-3
BPA Free

Natural, unbleached kraft paper
Per product application
20 - 78 lb per 3000 square feet

*FSC Chain of Custody Certification applies only to Roanoke Rapids Mill.
