

DiviTrack

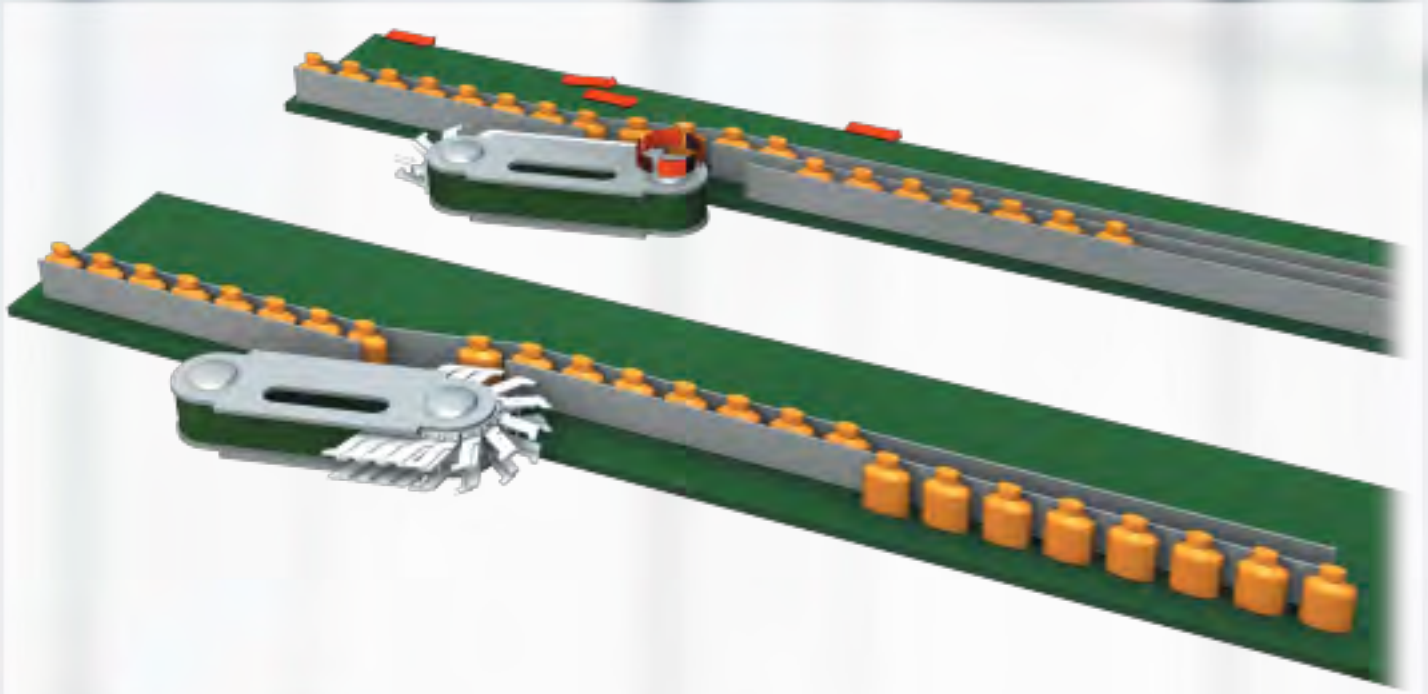

High Speed Lane Divider

- High speed distribution of all types of products
- Reliable concept
- Optimum product protection

CERMEX

A lane dividing solution to meet your specific requirements:

TECHNICAL CHARACTERISTICS

- Mechanism synchronised to the conveyor belt speed by numeric control
- Servo motors
- Solution adaptable to all machine layouts

ADVANTAGES

- Various non-accumulable product shapes and sizes handled: cartons, bottles, trays, etc.
- Continuous lane dividing without accumulating products
- Train length automatically adjusted according to the line functioning
- Minimal maintenance thanks to a simple pulley system

PERFORMANCE

- Distribution: from 2 to 8 lanes
- Noise free system
- Conveyor speeds up to 150 m/min
