

SW+P5

Side-Loading Case Packing and Palletizing Unit

- Case forming, side loading, sealing and palletization in an easily-accessible combined unit
- Compact footprint
- Enhanced ergonomics and safety
- Speed: up to 13 cases/min

A combined solution for side-loading case packing (RSC and wrap around blanks) and palletization to meet your specific requirements:

TECHNICAL CHARACTERISTICS

Case Forming, Loading, Sealing:

- Same case automation module for both RSC and wrap around blanks
- Patented case extraction system
- Improved operator access to the case handling part, in particular the loading station

Palletization:

- Overall machine height reduced and visibility/appearance improved by using a telescopic mast
- SecurBox®: transparent sliding cubicle enabling the operator to evacuate a loaded pallet safely without stopping the machine cycle while palletization continues on the second station

PERFORMANCE

- Speed: up to 13 cases per minute
- Payload: up to 12kg with tooling
- Versatility: 1, 2 or 3-station model with optional pallet gripping, layer card insertion, etc.
